

Research Assistant Position

Fair Transport Lab, Technion - Israel Institute of Technology

We are looking for a passionate and detail-oriented Research Assistant (part-time) for The [Fair Transport Lab](#), led by Professor [Karel Martens](#) and located within the Urban and Regional Planning Program at the Faculty of Architecture and Urban Planning, Technion - Israel Institute of Technology.

Responsibilities and duties

The selected candidate will be in charge of updating the [Fair Transport Lab website](#), assist with ongoing research projects (including collecting data, analyzing and summarizing results, etc.), and lead the writing of Hebrew-language articles for a professional audience in Israel.

Requirements

- Current student at the Technion
- Passion for social justice and fair transport systems
- High proficiency in English and Hebrew, including reading, writing, and speaking
- Strong time-management and prioritization skills
- Great written and verbal communication skills
- Prior experience in research is preferred

About the Lab

The Fair Transport Lab is home to an international team of researchers, studying the fairness of transport systems in developed and developing countries. The Lab aims to push the boundaries of transport research by engaging in philosophical and empirical research. Jointly, the Lab members seek to deliver fundamental insights that reshape the way we think about transport. The Lab also provides hands-on knowledge that can bolster advocates, professionals, decision-makers and others who share the Lab's ambition to help shape fairer transport systems around the world.

Application

Please send your resume and a short paragraph explaining your interest in the position to kmartens@technion.ac.il with "Research assistant" as subject of your email.

Deadline for application: 30 September 2024.
